HOW MUCH ARE YOU INTERESTED IN MAINE?

Central Maine Power Company is one of the few companies in the East that is helping its state to get ready for the industrial revival.

Maine is facing competition.

This competition will come not only from the United States, but from all the manufacturing world.

Maine is not the only state that has water power. Other states can develop power as cheaply.

Maine can, however, be about the only state that is ready with power when the first big demand comes.

Maine can get its full share of the industries that must move where water power is available, IF MAINE PEOPLE WILL INVEST NOW IN MAINE TO BUILD MAINE.

If you are interested in a sound security that promises not only to pay dividends for all time, but also helps in the upbuilding of Maine, why not send the coupon and learn more about Central Maine Power 7 per cent. Preferred Stock? The price is \$107.50, the yield 6½ per cent. net.

MY DAYS AND NIGHTS IN THE HOSPITAL

So many people have had hospital treatment, that it is no novelty and I cannot hope to interest the general public in my experience. Yet, I had so many messages of sympathy and cheer during my "shut-in" days from friends far and wide, who knew not my trouble and its seriousness—communications that I could not then answer—that I concluded to write in case I came home alive, some sketches for the Advertiser, in which paper so many had seen the statement of my going to the hospital for a serious operation. Among these may be mentioned Miss Stella M. Pike and her sister, wintering near Portland; Miss Blood, a cousin of mine in Galesburg, Illinois; the Baker sisters at Denver, Colorado, and Harry Gibson's family in California. Several probably saw in my condition the fate of the new Norway History and were doubtless concerned about it as my life was trembling in the balance.

Fred W. Sanborn, editor of this paper, wrote that he should look for some sketches from me after I got home, and I sent word to him that it would be agreeable to me to comply with his wishes. I had seen in a Boston Sunday paper a sketch about a hospital in that city. There was very little of interest in it for me. The "personal" which makes such sketches readable was lacking. Mine will be filled with personalities. They will fairly shine with them. No one likes to say or write nice things about people and events more than I do, but I must believe thoroughly what I say or write. I do not recall that in all my life I could bring myself to say nice things of anyone I thought to be unworthy. I fancy I could say things that would sting and blister when the occasion demanded.

Of the great number of persons treated at a hospital a few die, and the fate of one who passes away there is longer remembered in the community where he lived than the help or cure that fifty others from the same locality receive. There is a horror among a certain class of people about going to the hospital for treatment and they nurse their complaints till they become chronic and often times past hope of recovery, when they are compelled to face the dreaded ordeal. The wonder is that so few comparatively under these circumstances die from operations and treatment in the hospital. I presume, though I cannot speak from any personal knowledge, that some fatalities result from lack of skillful treatment. It's wise to get the best surgeon at hand when one has to submit to an operation.

Tribute to Dr. Alfred Mitchell
Looking back over the period of my trouble, I am led to believe that I have been very fortunate from the first. I am grateful to Dr. B. F. Bradbury for taking me to Dr. Alfred Mitchell at the Maine General Hospital for the operation he performed upon me. Doctor Mitchell is one of the great surgeons of the country, and is one of the most skilled operators anywhere for prostate glands. I was told that during the two years he had been connected with the hospital he had never lost a case, where he performed the operation. I also heard this story: A man living in the vicinity of Portland went to the John Hopkins Medical Department to have an operation performed by a celebrated surgeon. When the surgeon learned where the man resided, he said, "What are you out here for, there is a surgeon in Portland, Me., Dr. Alfred Mitchell, who knows as much about such complaints as you as I do." Doctor Mitchell is in the prime of life with a great future before him. Has been well educated, is unmarried, and devotes all his time to the practice of his profession. He comes of good stock, his father was a Professor at Bowdoin College and Dean of the faculty. Doctor Mitchell was also in the army during the great World War. He is frequently called away from his office and the hospital to perform operations. He used to visit me every day when at home, so I learned about his outside calls. Every I looked for his smiling, handsome face and pleasant greetings. He never said nay to any request I ever made. All these things count mightily with the sick one away from home and those who care whether he lives or dies. While his lists I shall always hold Doctor Mitchell in grateful remembrance as will all my family.

Acknowledges Receipt of Sign

Some time ago the Weary Club sent a sign which they found at the Robert Noyes place to M. M. Phinney of Redlands, California, and recently received a box of oranges and the following letter: "Gentlemen: Some weeks ago I received a package from your Club that on opening looked very familiar, although it is forty-two years since I saw it. I surely brought to my mind many pleasant recollections for those six years I spent in your thriving town were some of the happiest in my life. "I notice you gave Mr. Geo. Small credit for the painting of that sign. I will say it was some of my handiwork, being one of the many signs I painted and posted up about the town. Although my old time friends there have nearly all passed away, yet I shall always have a very kind feeling toward the good people of Norway, Maine. Will your Club kindly accept the crate of oranges I am sending them, charges prepaid, and thanking you for the thought that prompted you to forward the old sign to me, I am very sincerely yours, M. M. Phinney." P. S. I opened my dry goods store in Norway Sept. 8th, 1879.

Unicorn Dairy Ration

"You can fool a man, but you can't fool his cow!"

It is not the cost of a feed that is killing the farmer and reducing his profits. The real source of his trouble is his failure to run his cows to full capacity and feeding them right and decently. Cows that could give 40 lbs. of milk are running on a 20-lb. basis, and cows that could make 30 lbs. are running on 15. The reason dairymen continue to use UNICORN is because they get enough more milk and enough more profit out of it to make it worth their while.

THE UNIVERSAL CAR

FORDSON

The Ford Motor Company have just issued a book called "The Fordson at Work." This book is given free. Call in and get one. If you cannot call, write and we will mail you one without charge. It is not what the Ford Motor Company says about the Fordson Tractor, but what the army of users have to say. This book voices the hardest kind of practical experience. It shows in illustration the Fordson Tractor at actual work along some ninety different lines of activity. It shows in these illustrations the wonderful versatility and utility of the Fordson Tractor. Shows it to be, beyond all question, the one bit of machinery that is a necessity, not only on the farm, but along many lines of commercial business; especially does it show up the Fordson as a valuable servant on the farm. With it the farmer is relieved of the hard work; because he can take advantage of the weather in preparing his seed bed; he can do it at the right time; the same is true when it comes to harvesting. It solves, to a great extent, the problem of scarcity of labor.

With its wonderful, reliable power, it brings to the farm home all the conveniences, in the way of running water in the house, electric lights, operation of the washing machine, churning, separating the cream from the milk; it assumes and takes to itself the drudgery of farm life both in the field and in the house and it is only a matter of a few years until it will be as universal in its service on the farm as is the farmer himself. It will become a part of farm life; a beneficial part; a profitable part. Get order in for there's a rush coming.

Edmund, S.C.—"I was run down with nervousness and female trouble and suffered every month."

I was not able to do any work and tried a lot of medicine, but got no relief. I saw your medicine advertised in a little book that was thrown in my door, and I had not taken two bottles of Lydia E. Pinkham's Vegetable Compound before I could see it was helping me. I am keeping house now and am able to do all of my work. I cannot say enough for your medicine. It has done more for me than any doctor. I have not paper enough to tell you how much it has done for me and for my friends. You may print this letter if you wish."

—ELIZABETH C. CORLEY, care of A. P. Corley, Edmund, S.C.

Ability to stand the strain of work is the privilege of the strong and healthy, but how our hearts ache for the weak and sickly women struggling with their daily rounds of household duties, with backaches, headaches, nervousness and almost every movement brings a new pain. Why will not the mass of letters from women all over this country, which we have been publishing, convince such women that Lydia E. Pinkham's Vegetable Compound will help them just as surely as it did Mrs. Corley?

SWEDEN

Wendell Plummer has just bought a pair of horses of Sidney McAllister of Lovell.

Two flocks of wild geese flew over this place last Saturday, flying north and Sunday Enfield Plummer started to call on a neighbor and as he was going down Chute's Hill he heard a noise and looking around saw a goose only a short distance from him. It was very foggy and the bird flew within a few feet of him. It seemed to be lost.

March 25th is pretty early to be plowing, but Wendell Plummer plowed the garden and March 23 he broke up a piece of ground and then we had a nice shower at night.

But very little syrup being made in town this spring.

Remember, this medicine has given satisfaction to three generations. It cleanses the blood, purifies the stomach, liver and kidneys, and for catarrh, rheumatism and other common diseases. It builds up the system, makes food taste good, and helps you to eat and sleep well.

MRS. J. M. CRAIG, of Los Angeles, Calif., who says no one can feel more grateful for what Tanlac has done than she does. Has gained twelve pounds and health is better than in years.

"Of all the people who have taken Tanlac, I don't believe there is anyone who feels any more grateful to it than I do," said Mrs. J. M. Craig, of 674½ E. 40th Street, Los Angeles, Calif.

"I suffered from nervous prostration and was so weak that I could not even sweep the floor and during the day I would have to lie down four or five times. I tried to walk, but found out that half a block was all I could stand before I would give out. Nervous spells came on me often. Finally my husband urged me to try Tanlac and I am indeed glad he did, for it proved to be just what I needed."

"The first two bottles did not seem to help me. I guess it was because I was so bad off, but on the third bottle I could tell I was improving and that gave me more hope than ever of getting well. My improvement from then on was rapid and by the time I had taken five bottles I was better and stronger than I had been in years."

"It enabled me to sleep soundly at night and I have gained twelve pounds. That was several months ago and from then until now I have been in as good health as I ever was in my life. I have told all of my friends and relatives what a wonderful medicine Tanlac is."

Tanlac is sold by A. L. Clark Drug Co., Norway; Storvick Bros., Locke's Mills; R. E. Pinkham, East Waterford; W. H. Brown, East Stoneham; Heald, Stearns & Kimball, Lovell; H. L. Hutchins Co., North Fryeburg; L. R. Rounds & Co., Waterford, and P. G. Barrett, Welchville, Me.

Concerning the Community Advisory Board of the Home Service for the Salvation Army

Mr. Henry came quietly amongst us and as quietly departed and as he said "probably never to return," but he came bringing a request from The Salvation Army of the larger cities, to the smaller towns and the rural districts, that they aid them in extending their work to rural communities.

In as much as 65 per cent. (which they claim) of the cases which they aid and abet are of persons from the smaller towns and rural districts, it would seem that their request deserves our sincere consideration.

It is early now to know just what service we can render or is expected of us but we anticipate that some of this service will be advice, information and what material help we can simply give, where necessary relief to the distressed must be given.

Mr. Henry's drives or pledges are now asked, but the sympathy from our hearts and to render service to the Salvation Army, whose valued work the nation should be grateful for and does acknowledge. In rendering our service to the organization, we may be also comforting some of "our own" from our own community.

As our community is becoming more Christianized and civilized more helpfulness is demanded and so all the churches, all the lodges, the American Legion, G. A. R., Daughters of the Revolution and other patriotic orders, the Grange, the school officers, teachers and every student of the schools, Boy Scouts, Campfire Girls and all the clubs, every individual who resides at the most remote outposts in our community are earnestly requested to stand behind and re-enforce our service to the Army who are trying to uplift those who have wandered away from the influence of relatives and friends. All these are asked to render some service by advice, information (not gossip) and what financial aid each feel he or she can comfortably contribute, this to be furnished to the finance committee of the community advisory board.

We do not desire that the accomplishment of this service shall be like a nova star, to flare up in brilliancy for a day or two and then wane to invisibility and forgetfulness, but to be a constant factor for real betterment in distressing conditions in our own community as well as those outside the borders of it.

A meeting will be called in the near future to which everyone who has the least interest in the service which the advisory board can render is asked to attend where more information can be had. Stephen B. Conings, president of the Community Advisory Board.

It Now Holds This Price Advantage

Essex quality quite naturally creates an expectancy of high price. Compared on every hand to costly cars it would be strange if many did not fall into that error.

Thus actual price comparisons give Essex true value in sharp relief.

How many of the cars in the Essex price range do you ever embrace in the same thought with it in regard to fineness, ability and distinction?

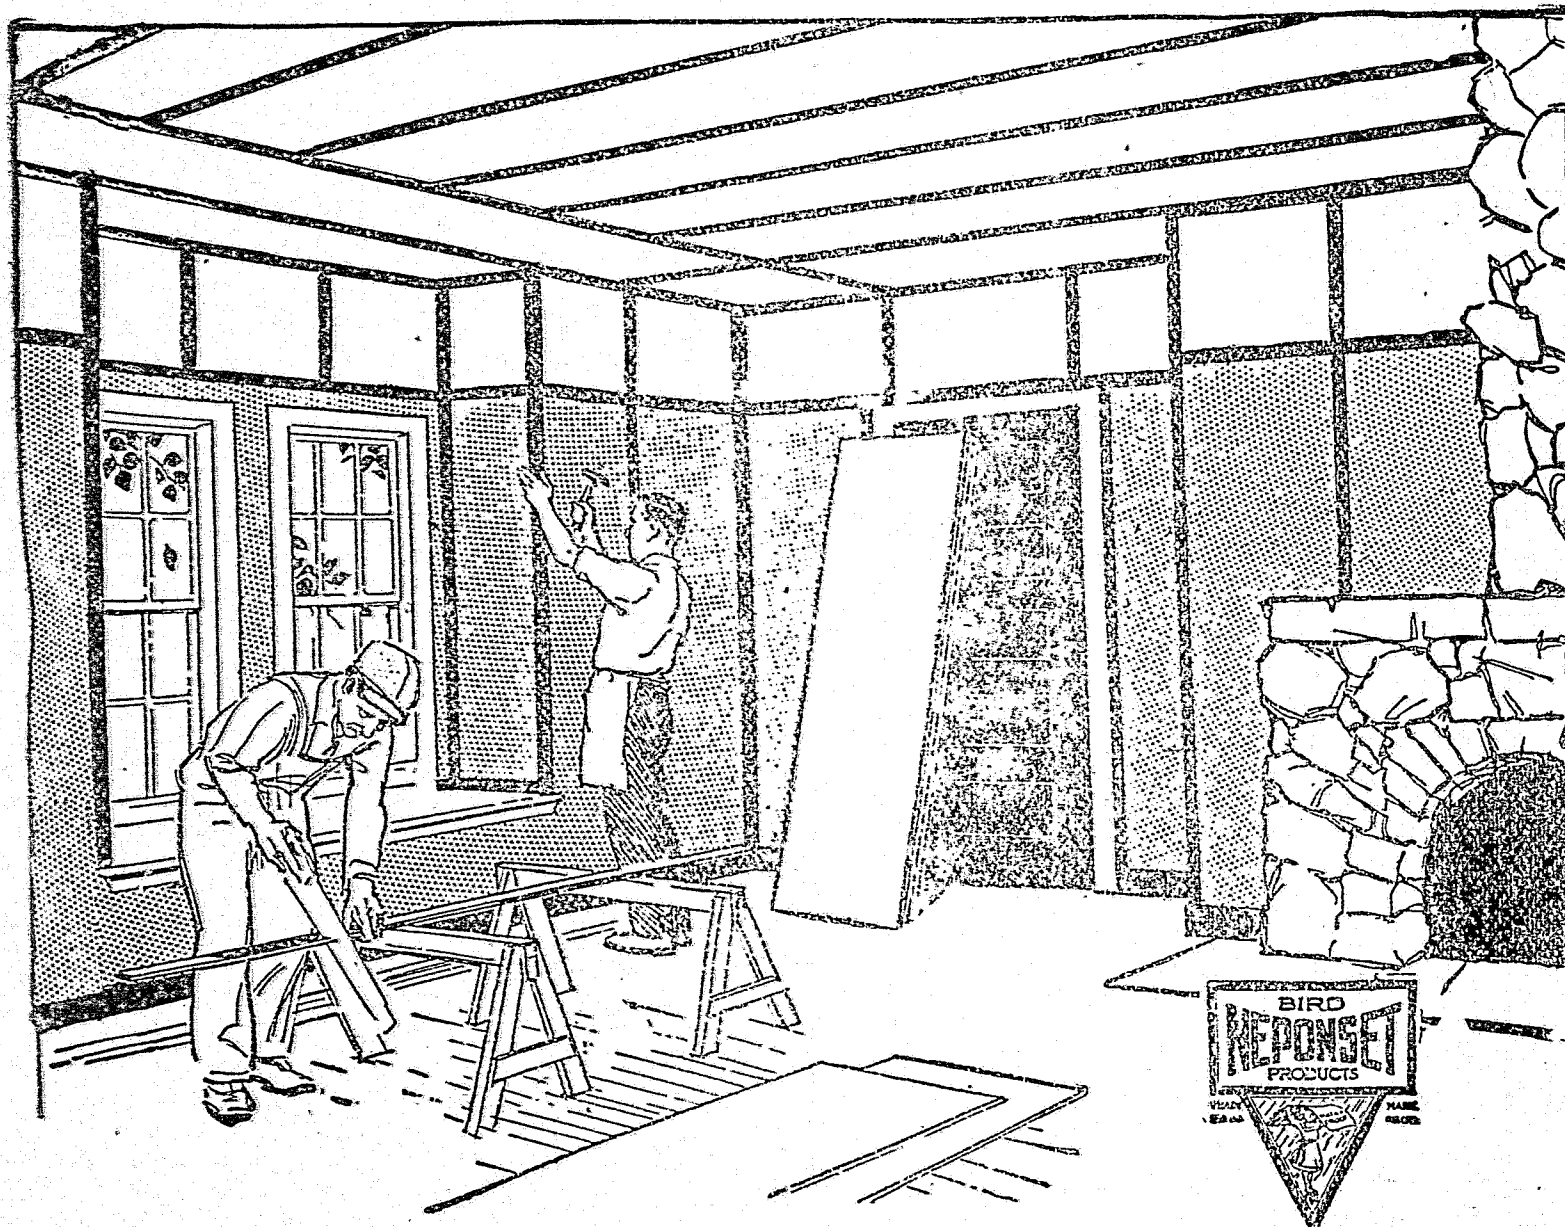

And do not the cars that you consider in the Essex quality class invariably cost hundreds of dollars more?

In reaching a standard by which to understand Essex values you must consider such price contrasts, as well as facts bearing on ability and dependence. Such examination will convince you also of the unusual value the Essex represents.

Easter Sunday

Easter Sunday was observed with appropriate services as usual in both churches. Sermons by the pastors and music by the young peoples' choirs; also both Sunday schools had Easter exercises by the children.

At 3 p. m., at the M. E. church the adult ladies' class of the federated Sunday school gave an Easter program which follows in brief:—Opened by Minnie Day president; music by the congregation led by a ladies' quartette, Mrs. A. Brock, Mrs. Coffin, Mrs. M. Curtis, Mrs. K. Whitman with their class, against Miss E. Z. Berry.

Selected Easter scripture, Mrs. Agnes Brock, followed by prayer by Columbia D. Dunham their devotion leader. There were several short readings by various members of the class interspersed through the whole program. A sermonette was given by Mrs. Julia Abbott Jackson, teacher of the class, in which without notes she reviewed the whole resurrection scene as given by the four gospels and the various appearances during the forty days our Lord was upon earth after His resurrection. It was very interesting and impressive. Several congregational pieces were sung, also a solo by Agnes Brock accompanied by Mr. and Mrs. Howard McKee, violin and organ, a solo by Doris Richardson accompanied by Margaret Lane, a duet by Elizabeth Bane and Ruth Cole accompanied by Mrs. McKee, also a duet, "In the garden," by Mrs. Berry and Mrs. Minnie Curtis. The whole service was helpful, inspiring, impressive.

This only organized class of the Federated Sunday School Helping Hands is the largest class in the school numbering about 30 ladies is a real factor in the church. They have two assistant teachers, Mrs. Dunham and Mrs. Bane. They have their class business meetings first Friday of each month, besides many helpful things in the way of sewing, cooking or caring for the sick.

Mrs. Olive J. Cummings and granddaughter, Zilpha Barrows, are spending a week with her sister in Portland.
